DEVELOPER EXTRAORDINAIRE

Detail-Oriented | Organized | Continuous Development
Passionate | Enthusiastic Learner | Resilient

QUALIFICATIONS SUMMARY

EXPERIENCED DEVELOPER with an impressive 4-years of career highlights in the areas of:

- **Creative Coding:** Developed 80% of the JavaScript used by TWG, created customized shopping carts, and planned and coded other projects, both desktop and mobile, critical to clients' success.
- **Adaptation:** Starting off as a designer preparing mock designs through Photoshop, I thrived as a self-taught developer looking for creative cross-browser solutions to coding issues.
- **Project Management:** Able to work as an individual or on a team to manage core-business projects and drive them to completion under critical deadlines.

EDUCATION

Degree in Web Design & Development, 2007
Elizabethtown Community & Technical College

TECHICAL EXPERTISE

Languages: HTML5, CSS3, JavaScript, jQuery, AJAX, JSON, ASP, PHP, MySQL, XML/XSL

Software: Photoshop, Dreamweaver, XAMPP, SQL Server, Wordpress

Exposure: .NET (VB), ActionScript 2/3, IIS, Apache, Eclipse (w/ CVS), Linux (GUI/CLI)

PROFESSIONAL EXPERIENCE

LEAD PROGRAMMER

TWG Design Studio, January 2008 – January 2012

Served as a flexible coder working in back- and front-end, creating customized web applications in JavaScript, ASP/VBScript. Worked in collaboration with the sales and design team to research and create solutions for critical projects.

- Rewrote over 20 saleable components from scratch for improved customization and performance allowing clients full control of their projects.
- Recreated MyNewKYHome.com, a hub for Realtors with increased functionality, speed, and data storage using ASP.
- Developed a large-scale menu ordering system for Sysco to distribute to regional restaurants and also a Mailing List Manager for franchise restaurants to communicate with customers.

PERSONAL PROJECTS

Resizive

Enables easier detection of content-based breakpoints for media queries in regards to responsively designed fluid-width websites.

Remember the Ginger

JavaScript card matching game with scoring/metrics.
